## Today Terrific Blast Rocks Downtown Cleveland

Mr. Coolidge Says No.  
Good News for Gamblers.  
Mukden, Moscow Make Up.

By ARTHUR BRISBANE.  
(Copyright, 1929, by King Features Syndicate, Inc.)

FORMER PRESIDENT COOLIDGE decides that he will not be a candidate for United States senator. And this time nobody will ask whether he means it. In his case, language is not made to conceal thought.

It is President Coolidge who runs for office again, and probably he will, it will be for an office bigger than a senatorship.

HAPPY Mr. Coolidge, he got out in time to dodge the Wall Street crash. He left the people rolling over and over in money, prosperity, higher wages and lower cost of living.

Times get worse and it "looks like a Democrat," there will come a time when Mr. Coolidge will be elected by the people FOR A SECOND TIME.

It is amusing to see an intelligent state daily spending public money to increase property values and business profits for criminals.

That's a sample of "America's superior civilization."

NEW YORK STATE is proceeding also with the building of a prison which will hold 2,000 criminals and cost twelve million dollars.

The nation and the individual states seem to have plenty of money, the nation up to ten thousands millions to help other nations fight a foreign war, New York state other millions to build up property values for gamblers and provide comfortable prisons for criminals.

LATER perhaps the richest nation in the world and the richest state will find the money to build decent homes for men and women that do not go to prison, giving these men and women an opportunity to rent them or buy them on reasonable terms, and freeing them from taxation.

MUKDEN and Moscow have reached an agreement and the present Russia is the winner.

The Kellogg pact did not have a chance to do its benevolent work in that case. In fact, Russia snubbed the Kellogg pact, asking, not unreasonably, what business it was of ours to tell Russia what to do in China? Russia had not told us what to do in Nicaragua or Haiti.

Our provincial statesmen are slow to recognize that Russia is an important nation, even without the Czars.

A FRENCH newspaper says the French government will insist absolutely, in connection with naval reduction and disarmament discussion in London, that everything proposed must first be passed upon by the League of Nations.

THUS, on our trip over there, we find ourselves in the League of Nations, or at least our suggestions must not amount to anything unless the League of Nations approves them.

We seem to be more successful managing things for the United States here than managing them for Europe abroad.

### EXPLOSION IN CABLE SYSTEM HITS TRAFFIC

Lives of Hundreds of Pedestrians are Endangered.

#### GAS IS BLAMED

Flames Spurt in Air As Manhole Covers Skyrocket.

By International News Service. CLEVELAND, Dec. 26.—A terrific blast, which hurled more than a score of manhole covers sky-rocketing into the air, rocked downtown Cleveland today, endangering the lives of hundreds of pedestrians and motorists, demolishing traffic and paralyzing elevator service in nearby buildings.

The explosion occurred in the underground cable system of the Cleveland electric illuminating company. They are believed to have been caused by a short circuit igniting an accumulation of gas.

Flames spurted into the air following the explosions, the first of which ripped off six manhole covers, sailing them more than 15 feet into the air.

No one was reported injured by the blast, which, apparently, was similar to the recent explosion in Columbus where power circuits were tied up for hours in wreckage.

### FIRE PROMPTS WHITE HOUSE OFFICE MOVE

Totally Divorced Executive Building Demanded.

HOOVER SILENT

Damaged Structure to Be Repaired in 60 Days.

By GEORGE E. DURNO. International News Service Staff Correspondent.

WASHINGTON, Dec. 26.—As a direct result of Tuesday night's disastrous fire at the White House, a strong demand developed in congress today for the erection of a new and totally divorced executive office.

Representatives Fred A. Britten (R.) of Illinois and Royal S. Johnson (R.) of South Dakota were among the leaders in the movement for a separate building for the presidential office staff, and they were joined by a number of other prominent Republican members.

It appeared that the Christmas eve fire which ruined the west wing of the White House had given a real impetus to the proposal that a new structure, located adjacent to, but apart from, the main dwelling of the presidential family be built. The holidays had taken many members of congress back to their homes, but those who could be reached concurred in the idea that No. 1600 Pennsylvania avenue should be a residence only.

Lincoln Study Used.

President Hoover viewed all this discussion meanwhile without comment. For the next three or four days he will use the Lincoln study, one removed from the end room of the upper floor in the east wing, as an office. In the end room he plans to lodge his personal stenographer and clerks.

George Akerson, secretary to the president, will hold forth in the corridor, using the Lincoln cabinet table as a desk. Walter Newton and Lawrence Richey, the other two secretaries, temporarily will use the two rooms opposite.

Col. U. S. Grant, superintendent of public buildings and grounds, said from 60 to 90 days would be consumed in repairing the damaged west wing. He and his subordinates promised an accurate estimate of the cost by noon today.

President to Move.

The first of next week, Mr. Hoover will move into the office of General John J. Pershing—a little-used suite—in the state and war department, just across the street.

A readjustment of office space will permit the move necessary of his staff to follow him. In the meantime, the basement floor of the executive office was being dried out to permit occupancy by the general staff. The east room was turned over to reporters and photographers for a temporary press room. This meant a temporary closing of the White House to visitors, and also presaged a material reduction in the number of engagements the president can keep during the rest of the week.

### ELECTION TONIGHT

### LIST NO DEATHS

Few Disorderly Persons are Seen on Streets.

By International News Service. NEW YORK, Dec. 26.—Wetter but more orderly.

Such was the verdict today on New York's Christmas, 1929, as compared with Christmas, 1928.

Some came in ambulances, some came in taxis, while others simply staggered in. One may die, others were discharged after treatment. There had been no deaths up until an early hour today.

Eighty-three persons were treated at various hospitals, 53 at the Bellevue.

A majority of the patients were victims of cheap liquor for which they paid from 50 cents to \$1.50 a quart. Physicians declared most of the casualties were not the result of poison liquor dumped into the city, as has happened in the past, but the result of drinking too much of an inferior grade.

Christmas, 1928, sent 61 alcoholic patients to the hospital, 20 deaths were reported.

Despite the increase police said that yesterday was an unusually quiet Christmas, few disorderly persons being seen on the streets or in public.

No raids on the part of prohibition agents were reported.

### EMULATE TOT IN UNSELFISH GIFT, IS PLEA

Rev. R. C. Beechley

### GIVE FOR JOY

True Spirit Stressed  
At Penn Avenue  
Church.

"If you wish to get an idea of the true Christmas spirit, watch an unselfish child at Christmas time," said the Rev. R. C. Beechley in an address for children at the Yuletide entertainment in the Pennsylvania Avenue Methodist Episcopal church last night. "If the older folks would enter into the veneration of Christ's birth in the same spirit that the child gives his small gifts to others, Christmas would be a great deal better."

"We are apt to think too much of what the other person is going to give us and so we give accordingly. The child gives freely and spontaneously, not being able to think of the more selfish side of giving."

The great trouble with Christmas now is that it has been too highly commercialized and there is too much system to our giving. To really enjoy Christmas, try to forget yourself and give for the joy of giving rather than the expectancy of receiving. Remember that our Saviour said, 'It is more blessed to give than to receive.' Practice the true Christmas spirit and watch the effect both to yourself and to others."

## Mr. Jack Singerman Tells How Cuticura Healed Son's Pimples.

"The trouble began on my boy's head. Pimples broke out all over it and there were a few on his face. The pimples scaled over and itched and burned so that he could not sleep either night or day. His hair was dry and lifeless and fell out some."

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. After using it I purchased more and in about three weeks could see an improvement, and in about four weeks he was completely healed." (Signed) Jack Singerman, Jr., Lock Box 21, Midvale, Ohio, Sept. 5, 1929.

### Ask \$500 For Health Fund

East Liverpool's place in the roll of honor of Ohio communities which have attained their quotas in the annual campaign for funds to carry on the warfare against tuberculosis will be taken by another city, unless the appeal of the City Federation of Women's Clubs for an additional \$500 is answered before New Year's day.

With the opening of 1930 as the deadline for Christmas health seal canvassing, leaders today reported \$1,640 of the city's \$2,140 quota raised. All booths have been closed, but the campaigners have been granted permission to accept contributions by mail.

Church societies, fraternal organizations and individuals are urged to add their checks to the fund in order to make certain that East Liverpool shall do as much in 1930 as has been done in bygone years to check the spread of a disease which exacts an appalling toll. Thanks to the aid given patients through funds made possible by the sale of the cheery messengers of health, the number of deaths from tuberculosis have been reduced one half in recent years.

Failure to attain East Liverpool's goal will mean that home service, financed by 85 percent of the money raised in the seal campaign, will be handicapped. Part of the public health nurse's salary is paid from the seal fund, while the remainder is used to purchase milk and other food for undernourished children and also to help pay the cost of treatment for sufferers.

Fifty \$10 contributions or one hundred \$5 checks will enable the campaigners to reach their goal. The canvass has not failed during the 22 years that the national and state anti-tuberculosis associations have functioned. And East Liverpool must not fail this year.

Mail your check for the fight against the white plague!

A lone policeman, armed only with a regulation night stick, guarded \$15,000,000 worth of Italian paintings and sculpture for a whole night outside the Royal Academy in London and was not molested. Had it been \$15,000,000 worth bologna or beer there would have been a near riot.

### Martyrs

Public opinion has been divided on the wisdom of President Hoover's order to release 36 obnoxious Communists from jail, after they had made themselves offensive by a demonstration before the White House. One group holds that the whole thing was a demonstration against the United States government and that 36 persons involved should have been cast in jail, charged with treason. The other group believes that failure to recognize their offense was the best policy.

Persecution and martyrdom are the only weapons of this class of people. They take advantage of the leniency of this government toward pests who construe liberty to be license, and venture to do things that would not be tolerated a moment by the soviet, which they claim to represent. Their only chance of success lies in arousing the wrath of those for whom they are demonstrating to such a pitch that they get stepped on, which justifies them in setting up a howl and exciting the sympathy of short-sighted persons who never inquire about causes, but are interested only in results.

President Hoover's action, therefore, in ordering them removed and sent home to their parents was a blow at the structure of their whole scheme. Prepared to languish in durance vile on behalf of the proletariat and clank their chains over the weekend in the Washington bastille, their disappointment must have been great. It is intensely humiliating after a group has fomented itself into some of the best jails in the country to be denied even the elemental courtesies due it at the very fount of American government.

It is certain that a Communist wins little sympathy out of jail and the best way to squelch the whole lot is to deny them the antagonistic co-operation necessary to excite public sympathy.

It's hard to see why Washington is so sure that the senate will approve the income tax cut. The president has approved it, the secretary of the treasury has recommended it and the public wants it.

### Easy Come, Easy Go

The good citizens of the United States have settled themselves comfortably to enjoy an \$160,000,000 reduction in federal income taxes. Quick passage of the bill authorizing this measure by the house and the senate and its hearty support by President Hoover was the very thing needed to quiet the panicky attitude created by the break on the stock exchange.

This large tax reduction was the most obvious and the quickest way to maintain business prosperity. The money saved by the people would be turned back into trade channels and would jingle eventually into the pockets of business. It was a perfect scheme and absolutely sound in its application to the particular situation.

It is a strange thing that there is never a similar adjustment in local taxation. The principles which apply to federal expenditures are not greatly different from those that apply locally. If taxation brings in too much, one of two things can be done; the money can be spent, or it can be saved. Has anyone ever heard of a return on local taxes?

The people's tax bill depends not only upon tax rates but also upon appraisements, special assessments and so forth. In a growing period, it is no more than reasonable to expect that there should be an increase in the total amount of taxes col-

lected by the various divisions of government, but it is unreasonable to expect that because revision has always been upward it should always remain so. There is wide need for governmental economy, and the proper place for it to begin is at the bottom in local government.

Lack of organization among taxpayers frequently results in the imposition of taxation conditions which are generally felt to be intolerable. Governmental officials, fired not so much by appreciation of the people's happiness as by their possibilities, foist impossible tax burdens upon them and there is no recourse. "Death and taxes are inevitable" they groan and that is the attitude which makes the whole affair possible.

No general reduction in local taxation is immediately likely in America, in spite of the tonic effects that result from a reduction in federal taxes. Yet, to avoid unpleasant political and economic results something may have to be done in that direction.

### Boston and Censorship

The city of Boston, heavily impregnated with the weightiest traditions of American culture, has drawn more unfavorable attention than is good for it in recent months by its interpretation of censorship. In an attempt to effect a remedy, a group of prominent men and women in Massachusetts has been working more than a year to frame a new censorship law to end "the distressing situation which has brought the ridicule of the civilized world upon the city."

Boston's censorship rage reached the height of absurdity a few weeks ago when the word "damn," which comes from decent Latin parentage, although it is a vigorous invective in English, was forbidden on the stage during Sunday performances. Actors were permitted to use it on Wednesday or Friday, and even on Saturday which is quite close to Sunday, but on the day itself—No. Nothing was said about books containing it, perhaps because the officious moralists realized that readers would not go to the bother of scratching it out for one day only.

It is doubtful if the passage of a new law would remedy the situation. The fact is that the censorship law in the Bay state is not much more idiotic than the corresponding laws in many other states. It is the severity of enforcement that has forced ridicule upon Boston, whose officials are losing sight of the spirit of the legislation and adhering only to its letter. In other states, an appearance of absurdity has been evaded by following the established American custom of nullification. Public opinion generally will not tolerate the enforcement of fool laws; in Boston, public opinion will, and therein lies the trouble.

The results of the attention which Boston has drawn in the matter are more serious than a decline in the cultural superiority which Boston has claimed for so long. When people give even tacit approval to the suppression of Dreiser's "An American Tragedy," O'Neill's "Strange Interlude," Remarque's "All Quiet on the Western Front," and Scribner's Magazine, there is an impression that there is something decidedly backward in their make-up. The rest of the world begins to wonder if such people are well balanced enough to be entrusted with other matters of importance.

Governor Fisher, of Pennsylvania, says that to dispute with the senate "degenerates" would mean loss of self-respect. Isn't the governor afraid that a good Quaker like his appointee, Mr. Grundy, may become contaminated by such associates?

Trotsky is said to have recovered his health and to show his old fighting spirit, but he is a lot like the fellow all dressed up and nowhere to go. There is no land to which he can go and start fighting.

## New York Day By Day

By O. O. McINTYRE

NEW YORK LETTER uaghuo... NEW YORK, Dec. 26.—The speakeasy cafe becomes increasingly opulent. Its entrance may be a rusty grill basement door into a dark hallway, but beyond is a burst of magnificence. Instead of alcoholic rowdiness, one finds a studied calm.

Such slush salons serve meals that would cost from \$7 to \$8 a plate in other gilded halls, for \$150. They lose money on food but, of course, more than make it up on wines and liquors. Those who do not buy drinks are politely turned away at the next visit.

Most of the de luxe places are conducted by experienced and high-salaried foreign chefs. They had saved and were ready when the opportunity came to launch a business that pays fabulous rewards—provided, of course, they are able to keep out of jail.

A patron is often piloted through a bright kitchen, shining with copper and nickel pans, up a flight of stairs, and at the end of a sudden turn comes upon a dining room that is not surpassed on the exclusive avenues or in the aristocratic hotels.

The waiters are those schooled in the old world. They have that unobtrusive manner of suggesting an appetizing meal and how to serve it. They know when Camembert has reached the proper ripeness and how to mix a sauce with that piquancy that makes a meal memorable.

It is in such illegal havens that one is handed a wine list with Chateau Yquem, Meursault, fiery old brandy, soothing cordials, liquors and perhaps a few carefully preserved bottles of old hock. Cocktails are artistically blended at the table.

Customers are selected with as much precision as applicants for the Social Register. Conversation never rises above a polite murmur. Any show of intoxication brings a tip-toeing head waiter with just a suggestion of a frown. Law breaking elegances must preserve decorum.

## How To Keep Well

By DR. ROYAL S. COPELAND

THERE are many kinds of catarrh, but the most common of all is nasal catarrh. There may be a severe cold resulting in a simple form of catarrh, and if allowed to go unchecked this condition may result in chronic catarrh, and perhaps in catarrhal bronchitis.

Some climates predispose to catarrh. Damp and changeable weather aggravates the trouble. This condition is due to frequent and neglected colds. You must overcome this tendency to having colds by following certain rules in your daily living.

You cannot afford to go about with wet feet or to live in ill-ventilated rooms, or in too hot rooms. Too many persons, especially women, wear their coats and mufflers indoors, and no matter how long they remain, do not remove them. They are overwarm, perspiration is brought on, and on returning to the open air there is evaporation of this moisture and chilling of the body follows. Chilling causes the blood vessels inside the skin to contract and the blood is forced to the deep parts of the body. The bronchial tubes become congested. Along with the chilling process there is a lowering of the body resistance, and the alert germs have a chance to break through the protective tissues. Then comes bronchitis.

Having one cold after another, the blood vessels lose their elasticity and remain swollen. The tissues of the nose become thickened. The glands are overworked and the

MISS ALICE D. Q.—I am only 22 years old and hard of hearing. What do you think the trouble is due to?

A.—Partial deafness is often caused by nasal catarrh which has extended into the middle ear. Try to correct this underlying condition and you will probably notice improvement. For other particulars send a self-addressed, stamped envelope and repeat your question.

A.—I would advise you to consult your own family physician for treatment.

EDITH G. Q.—What causes dark circles under the eyes?

## The Reviewing Stand

By TOM T. JONES

GOING to Florida is just like a trip to Calcutta compared with a visit to the West Indies and passing through the Panama canal, averred Dr. J. B. George following his return from an ocean voyage with Dr. Samuel Rich and former Prosecuting Attorney Robert Brooks. They were in Haiti while its capital, Port au Prince, was under martial law, visited Kingston in Jamaica where they got a glimpse of British rule, spent two days in Havana, Cuba, and upon their return were marooned a full day and night off New York harbor in a dense fog, seeing nothing and hearing constantly the sounding of sirens of scores of other ships equally unable to proceed in any direction.

He declared Havana the most beautiful city that he beheld upon the trip. Port au Prince with its people living in seeming squalor were not pleasant to behold. A lad in a boat surrounding his ship lost a leg when a shark seized him as he essayed catching coals dropped into the water at a depth of 50 feet at that point. They found residents in the Haitian city that had formerly heard of East Liverpool, they having met a Battery City man stationed temporarily in the palace while the navy.

THOUGH he has been away gaged passage on their ship the 20,000-ton liner Franconia but 240 of them made the trip because of the drop in the stock market. The 350 men crew was thus larger than the passenger total which added to the pleasure of the outing. Weather conditions that reached 110 degrees in the shade was encountered in Haiti and they returned to a near blizzard in East Liverpool.

COLON was the nearest point to the equator which they touched. They were at Nassau also. The residents of Port au Prince failed to impress Dr. George. "All the women do what work is being done there," he said. "Sometimes men will drive a little burro. Children run about naked."

Women wear long dresses of poor material and with no style whatsoever.

Just a year to the day when one of the members of the ship crew fell overboard it stopped momentarily upon the spot and with the crew lined on deck a wreath in his memory was formally dropped over the vessel's side. Thus were they given a close-up of the traditions of the sea.

Another feature to Dr. George was the attendance of the crew at ship religious services on the two Sundays they were aboard. The captain or one of the officers read the Episcopal service in which many of the men took part.

THE monument will be erected upon property now owned by Mrs. Cora Arttripp. Her house will be moved for its stands upon the same spot upon which rested the home in which Gen. Custer was born.

During its erection and when it will be completed doubtless appropriate exercises will be carried out which will prove of deep interest to many in East Liverpool, some of whose residents have in days past visited New Rumley to view the spot where Gen. Custer first saw the light of day.

When a young man the then George Custer walked from the spot upon this monument is to be erected into Cadiz, a distance of several miles, and asked for an appointment to West Point of the Hon. John M. Bingham, then the representative of the district in congress, and he was given it.

A monument or statue of Mr. Bingham now fronts the court house in Cadiz as does that of Edwin M. Stanton in Steubenville. The latter also at one time saved in Cadiz.

As the first ambassador to Japan from this country after serving upon the committee that tempted the impeachment of President Andrew Johnson, Mr. Bingham became nationally known. He was a frequent visitor to East Liverpool during his active political period.

News and Reviews of Current Movies

## "LITTLE JOHNNY JONES" WINNER

"Little Johnny Jones," the First National and Vitaphone film version of George M. Cohan's famous musical comedy hit, is now on the screen at the State theater.

Despite the fact that this picture is based on a musical show and is full of song hits, it possesses a thrillingly dramatic plot and a love story that is novel and appealing.

Eddie Buzzell, one of Broadway's favorite comedians, took time off from his New York shows to play the title role of "Little Johnny Jones," the Yankee Doodle dandy. Alice Day, as heroine, and Edna Murphy, as vamp, play opposite Donald Reed, Robert Edeson, Wheeler Oakman, Raymond Turner and other stage and screen favorites make up the supporting cast.

"Little Johnny Jones" is first of all an A-1 screen offering, brimming with action that runs the emotional gamut from laughter to tears. It is only secondly, but very

effectively at that, musical. Of course snappy dialogue abounds. And it all has the magic of the true Cohan touch.

Buzzell does most of the singing, and various orchestras play. Chorus girls aplenty appear, as well as many other elements of New York night life.

Two of the original song hits of the original Cohan success, "I'm a Yankee Doodle Dandy" and "Give My Regards to Broadway," are retained in the picture. Five new song and music numbers have been created, and you'll come away from the theater humming one or more of them. They are sure-fire for popularity.

## DUNCAN SISTERS WIN PLAUDITS

"It's a Great Life," which opened at the Ceramic theater yesterday, would be a very interesting story even if it were not enlivened by the antics of the inimitable stars, the Duncan Sisters, and nearly a dozen brand-new catchy songs.

The Duncan vehicle was directed by Sam Wood, who did such an excellent job with "College Life."

It plants the Duncans as clerks in a department store who are fired because Rosetta "ad lib" on a rah rah type of "organization song," euphemistically named "Smile, Smile, Smile, with Mandelbaum and Weil." That makes the opportunity for the formation of a team, the Hogan Sisters, with James Dean at the piano. Dean's courtship of Vivian, and Rosetta's resentment of his overflowing vanity, lead to a split. The story follows through the final reuniting of the girls, with a side byplot concerning Rosetta and "Parker," played by Jed Prouty.

There is a great deal of comedy in the picture, and just enough pathos to make the whole thing well-flavored. In a way, the story tells much of the personal life struggle of the Duncans in their spectacular climb up the ladder of the show business.

Numbers you'll remember are "Following You," "Sailing on a Sunbeam," "The Hoosier Hop," "It Must Be an Old Spanish Custom," "Won't You Be My Lady Love," and "The Sun of a May Morning."

## EDDIE CANTOR AT AMERICAN

How do girls make goofs under the blazing banner of the great glorifier of American womanhood, Florenz Ziegfeld?

That question was answered to the complete satisfaction of all patrons at the American theater yesterday, when "Glorifying the American Girl" was the holiday attraction.

Mary Eaton, herself a glorified Ziegfeld show girl who rose to the position of premier dancer for Flo Ziegfeld, plays the leading role, that a tank-town girl, who makes good in the big Ziegfeld spectacles. Her ascendance of the ladder of success is attended by numerous sacrifices and heart-breaks.

## Young Actress Sues Maurice Costello

Miss Vivienne Sengler, former Berkeley society girl and University of California student, in a suit against Maurice Costello, film star, claims that the veteran screen star promised to marry her in Stockton, California, on September 10th of this year. She asks \$100,000 heart balm. (Inset)—Maurice Costello.

Excellent support is rendered by Edward Crandall, Olive Shea, Dan Healy and Kaye Renard.

A special revue scene in the production brings Eddie Cantor, Helen Morgan and Rudy Valle to the all-talking screen in songs and skits.

## YOUTH SLAIN BY BOY, 14

Warren Lad Freed Pending Outcome Of Inquest.

By International News Service. WARREN, O., Dec. 26.—An inquest was to be held here this afternoon by Coroner John G. Henshaw of Trumbull county, in the death of James Gill, 18, of Sharon, Pa., who was fatally shot Christmas eve by Peter Nicasari, 14-year-

old high school boy. Nicasari was at liberty today on his own recognizance pending the outcome of the inquest.

The shooting occurred, according to police investigating the case, in front of the grocery store of Sam Nicasari, father of Peter. The store is located in Sharon, just across the state line into Ohio.

Gill with two companions visited the store Christmas eve, Nicasari told police, and started a disturbance during which the elder Nicasari was knocked down. When the visitors refused to leave, Peter picked up a revolver lying near the cash register and ordered them out, according to police.

Gill grappled with young Nicasari and the two struggled out to the street where the revolver was fired. One of the bullets struck Gill in the neck and the other lodged near the heart. Trumbull county authorities were notified and the body of the dead youth was removed to Warren where it was viewed by the coroner.

## SNOOK HEARS FATE SEALED

Co-ed Slayer Told Court Overrules Appeal.

By International News Service. COLUMBUS, O., Dec. 26.—Dr. James H. Snook, the steel-nerved co-ed slayer, who is under sentence to die in the electric chair at the Ohio state penitentiary here January 31, was officially informed today that the Ohio supreme court had overruled his appeal for a new trial.

There remain only two other legal steps, which defense attorneys can take to save the life of the ex-college professor, who beat and knifed Miss Theora Hix, an Ohio State University medical student, to death. They can carry the appeal to the United States supreme court or file a motion for a rehearing with the Ohio supreme court.

Although the verdict of the state court was handed down Christmas eve, Warden P. E. Thomas refrained from telling the doomed murderer.

"There was no need of spoiling the man's Christmas," said the kindly warden.

It is probable, however, that Dr. Snook knew of the verdict. His wife, Mrs. Helen Marple Snook, visited him in death row yesterday. If she did not tell him, it is possible that the "grape-vine telegraph" informed him of the verdict. News travels fast in that colony of 4,000 lost men.

Dr. Snook ate the regular prison fare of roast pork for his Christmas dinner. Other inmates are allowed a special basket of food from their folk. But the prisoners in death row are accorded no similar privileges.

War risk government insurance is now available for all World War veterans, J. H. Browne, commander of East Liverpool post No. 4, American Legion, has been advised by William L. Marlin, regional manager of the United States Veterans Bureau, Cleveland.

A new dividend for policy holders amounting to \$7,500,000 has been provided for 1930. This is an increase of \$1,050,000 over the amount for 1929. This will mean an increased dividend to the holders of all policies except the five-year convertible plan.

Government insurance is furnished veterans at less than cost as the government bears the expense of administration. All policies include protection against disability.

## HOSPITAL SITE IS OFFERED BY OHIO COUNTIAN

Hancock County Vets Interested In Romine Proffer.

CONGRESS MOVE \$700,000 State Hospital Proposed By Lawmakers.

CHESTER — Hancock county former service men are interested in the announcement of Edward S. Romine, Wheeling business man, to the effect that he will provide a free site for the proposed \$700,000 soldiers' hospital authorized by congress to be established in West Virginia.

Romine's offer includes a 100-acre tract in Washington farm, near Oglebay park, one of the historic spots of Ohio county.

The offer was made in telegrams to U. S. Senator Henry D. Hatfield, U. S. Senator Guy D. Goff and Congressman Carl G. Bachmann, the latter the representative of the First district. The wire was acknowledged, with the information that the offer would be filed at once with the proper officials.

Mr. Romine's telegram read: "As a Christmas offering of a location for state veterans' hospital, I will gladly present one hundred acres, unincumbered, of Washington farm, formerly owned by George Washington heirs, located contiguous to Wheeling and opposite Oglebay park.

Location, Altitude Ideal Washington farms is ideally located for the purpose for which Mr. Romine tenders the 100-acre tract. It is a 15-minute drive from Wheeling, on the north side of Waddle run and opposite Oglebay park. It has an elevation of 1,355 feet, placing it above the fog line and at the same time it is sufficiently remote from the city to be free of smoke. The entire tract of Washington farms contains 545 acres, a part of which is under cultivation and the remainder is attractively wooded.

The original surveys of the land in the section are said to have been made by George Washington, first president of the United States, and the gentle rolling, rich soil and timberland so impressed him that it was upon his recommendation that it was his nephew, Lawrence Washington, acquired a large acreage. Upon it the Washingtons lived for many years and Lawrence Washington, his wife, Dorcas Wash, and their daughter, Emma Washington, were buried upon the farm. After Mr. Romine acquired the farm the neglected graves were cared for with a view of definitely preserving them.

Linsly Log Cabin Washington farms also contain a portion of the farm of the late Noah Linsly, founder of Linsly Institute, and the old Linsly log cabin is still preserved upon the tract.

Mr. Romine in discussing his offer, points out that the historical associations with the property alone should appeal. His offer was made without any strings attached, save that the property be used as a veterans' hospital for West Virginia.

## JUDGE LONES AMENDS RULE

Increased Work Prompts Change in Filing Petitions.

LISBON — By reason of greatly increased volume of work in the clerk's office and insufficient number of employees, it has become necessary to amend Rule 11 as follows, Judge W. F. Lones, said today.

The rule shall read: "To enable the clerk to make up his trial list in accordance with Rule 7, attorneys must endorse on the back of every petition, before filing the same, the nature of the action, whether law, equity, error, divorce, etc.

"At the time any pleading is presented for filing the party filing same is required to leave with the clerk a copy thereof for each opposing party. The rule as to filing copies applies to motions, demurrers, petitions in error and briefs, as well as to petitions, answers and replies.

"When a pleading is presented and this rule not complied with, the clerk is instructed not to file the same.

Bishop Murder Case Philo Vance Story of Mystery and Crime.

By S. S. VAN DINE

An old butler admitted us and led us into the drawing-room on the left of the entrance hall, where we found Sergeant Heath and two other men from the homicide bureau. The sergeant, who was standing beside the center-table smoking, his thumbs hooked in the armholes of his waistcoat, came forward and extended his hand in a friendly greeting to Markham.

"I'm glad you got here, sir," he said, and the worried look in his cold blue eyes seemed to relax a bit. "I've been waiting for you. There's something fishy about this case."

Markham sensed the sergeant's mental insecurity, and asked somewhat abruptly: "Just what seems to be the difficulty in the present case?"

"I didn't say there was any difficulty, sir," Heath replied. "It looks as though we had the bird who did it dead to rights. But I ain't satisfied, and—oh, hell! Mr. Markham, it ain't natural; it don't make sense."

"I think I understand what you mean," Markham regarded the sergeant appraisingly. "You're inclined to think that Spurling's guilty?"

"Sure, he's guilty," declared Heath with over-emphasis. "But that's not what's worrying me. To tell you the truth, I don't like the name of this guy who was croaked—especially as he was croaked with a bow and arrow. . . . He hesitated, a bit shamefaced. "Don't it strike you as peculiar, sir?"

Markham nodded perplexedly. "I see that you, too, remember your nursery rhymes," he said, and turned away.

Vance fixed a waggish look on Heath. "You referred to Mr. Spurling just now as a 'bird,' sergeant. The designation was most apt. Spurling, d'ye see, means 'sparrow' in German. And it was a sparrow, you recall, who killed Cock Robin with an arrow. . . . A fascinating situation—oh, what?"

The sergeant's eyes bulged slightly, and his lips fell apart. He stared at Vance with almost ludicrous bewilderment.

"I said this here business was fishy!"

"I'd say, rather, it was avian, don't y' know?"

"You would call it something nobody'd understand," Heath retorted truculently. It was his wont to become bellicose when confronted with the inexplicable.

Markham intervened diplomatically. "Let's have the details of the case, sergeant. I take it you've questioned the occupants of the house."

GOUGHAM CRIME ADDED TO LIST OF UNSOLVED

Rothstein Case Compares With King, Elwell Slaying.

CLUES MISSING Case Was Big Issue In Last Mayoralty Campaign.

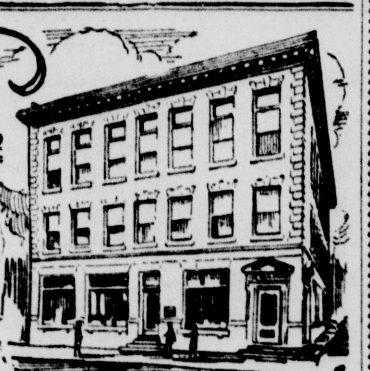

By International News Service. NEW YORK.—"Unsolved." The murder of Arnold Rothstein, one of the crime sensations of the decade in New York City, may now be definitely listed in this manner, alongside the Elwell case, the Dot King strangling and other famous unsolved Broadway mysteries.

No one disputes this after the great legal farce staged recently when District Attorney Joab H. Banton's four assistants, after a trial lasting almost three weeks, failed to prove a case against George A. McManus, big-time gambler, whom they charged mortally wounded Rothstein, "king of the gamblers," in Room 349 of the Park Central Hotel on the night of Nov. 4, 1928.

Judge Charles C. Nott, Jr., after hearing the testimony of a long procession of state witnesses, threw the case out of court because of "lack of evidence" and directed the jury to return a verdict of acquittal.

Now the authorities are just

where they were the day after the crime was committed. They don't know who killed "A. R." At least they haven't "got" their man.

No case in recent years has approached the Rothstein slaying in the point of public interest. It created more political uproar than any similar case since District Attorney Whitman years ago uncovered evidence of wholesale police graft while sending Police Lieut. Charles Becker and four gunmen to the electric chair for the murder of Herman Rosenthal, also a big-time gambler.

The Rothstein case was spiraled to the point where it became the major issue in the last mayoralty campaign.

Ever since Rothstein was mysteriously shot there have been reports along Broadway that any number of persons knew who did it. During the campaign one of the mayoralty candidates went so far as to say he knew McManus didn't do it—falsely, he (the candidate) knew who did. Immediately after the campaign and just before the McManus trial this man, a former police official, went

ACTION SOUGHT

New War Secretary To Boost Navigation.

By International News Service. ARKANSAS CITY, Kas.—Barges may be plying up and down the

Arkansas river within the next few years, with Arkansas City as a stopping place.

Such is the theory of A. C. Trumbo, of Muskogee, director of the Arkansas River Navigation Association and spokesman for those who are sponsoring and directing the movement which again would place two-boats and barges on the Arkansas River.

See Friend In Hurley

The appointment of Patrick Hurley, of Oklahoma, as secretary of war is believed by Trumbo to be an important factor in nearing the day of river traffic on the Arkansas.

Secretary Hurley, according to Trumbo, has found inland waterways one of his biggest official duties. As an Oklahoman, he is familiar with the existing conditions in regard to Arkansas river navigation. Secretary Good depended on Hurley's judgment on flood control and his knowledge and friendliness to the state obviously clears the way for immediate action, Trumbo believes.

The state, he said, is capable of providing sufficient tonnage to

## "Higher Waistlines Prevail"

PATTERN 1784  
The Review 15c Practical Pattern

Several fashion highlights are embodied in this frock fashioned of tweed patterned silk. The circular flounces are set quite low on the skirt; pin tucks create a delightful effect at the back of the neck, afford a better fit, and give extra freedom or the new higher bust-line.

The set belt may be worn at the normal waistline or below, whichever is most becoming to the individual figure. Design 1784 would be equally smart fashioned of a plain color fabric. Popular seasonal shades are brown, raisin, bottle green, black navy. The covers may be lined in a contrasting color for additional chic.

May be obtained only in sizes 16, 18, 20, 22, 24, 26, 28, and 30. Size 16 requires 3 1/2 yards of 40 inch material.

## PARIS WINTER SPORTS EXPO PICTURESQUE

Palais Des Sablons Is Scene Of Unique Exhibit.

REVIVE HISTORY  
Show Motor As Aid To Ski Jumper In Climb Back.

By International News Service.

PARIS.—Paris, proverbially the city of picturesque contrasts, recently presented two seasons which appeared to have nothing in common, at one and the same time. A warm sunny week this month was chosen for a winter sports exposition in the Palais des Sablons, a stone's throw from the Palace Victor Hugo.

Rolling down from a height of about 40 feet and extending nearly as many yards, was a billowy track apparently thickly covered with snow. The white layer, of course, was composed of boric acid, but this was a mere detail. From the lofty platform glided one skier after another into the well of the wall, Alpine soldiers, Savoyards, and Norwegians, who maneuvered with their skis as skillfully as if they were in the Swiss mountains.

Most interesting was the maneuver of a woman skier in full equipment, bearing on its back a

local friends during the holidays.

S. T. Beebout of New Cumberland, W. Va., was a local visitor yesterday.

Mr. and Mrs. C. E. Guinan, Weirton, W. Va., spent yesterday with local friends.

R. B. McLaughlin of Meadville, Pa., is transacting business here.

Paul M. Haskett returned to his home in Toronto today after visiting with friends here yesterday.

Dr. C. J. Harrison of Akron is spending a few days with local friends.

E. J. Miller, Chicago, was a business visitor here today.

Mr. and Mrs. John Hanlin of Lima have concluded a brief visit with friends here.

W. S. Ensley, Youngstown, was a local visitor yesterday.

Leonard Sole of Benwood, W. Va., is visiting here.

Mr. and Mrs. James Brown, Cory, Pa., were visitors here yesterday.

C. W. Williams of Youngstown is transacting business here.

light motor, so delicate and light of construction that it appears to be no more cumbersome than a bird cage. It is connected with the skis by two padded wires and its function is to aid the bearer to climb mechanically after a descent has been made.

Another interesting exhibition recently held in the capital was that of Paris relics of the last century at the Galerie Charpentier, which included a large number of personal belongings, autographs, portraits and drawings of celebrated figures of French history. There were Eugene Delacroix' cap embroidered for him by George Sand and the dainty green slipper of de Musset's godmother, Madame Jaubert, which served to keep his papers from blowing about the room, the cast of the foot of the famous Rachel, French actress, Blazac's walking stick with turquoise forget-me-nots for the head, de Vigny's inkstand and Victor Hugo's writing table.

The autograph manuscripts included many of the finest items of Edouard Champoignon's great collection, whose cases full of pages in the hand of Chateaubriand, Stendhal, Anatole France, Baudelaire, Loti and d'Annunzio.

New motoring rules have recently been issued for France and one of the principal provisions is that all traffic on the national roads is to be given right of way. Any driver, therefore, on a "route nationale" does not need to bother about cross traffic from a branch road. The new regulations are also stricter in regard to brakes and headlights and call for all bicycles to be equipped with rear lights.

The University of Paris is the largest in Europe, according to a recent statement made by the Comité d'Action Economique et Douanière. The proportion of foreign students is also the largest on the continent, with 14,700 foreign students among the total enrollment of 26,100. Scholarships are granted to more than 1,000 young people from different lands, continuing the international policy begun during the Middle Ages when different countries erected colleges here for students at the university and the most common tongue was Latin, hence the naming of the quarter around the Sorbonne, the "Latin Quarter."

**ADD LIFE TO YOUR YEARS, AND YEARS TO YOUR LIFE.**

When John R. Gordon, Danville, Ill., found himself unable to sleep after his day's work, constantly "tired-out" and continually pestered with urinary irregularities, he very wisely took Poly-Bills daily.

He says: "After just a few doses I felt better, could work with more ease, became stronger, and could sleep all night without a call." Men and women everywhere use and recommend them. In constant use over 25 years. Try them. For sale at Herche's Drug Store, 6th St. and Dresden Ave.—Adv.

# INDEPENDENT CAGERS OPEN NEW YEAR'S EVE

## Genevans Billed In Lid Lifter

Lippe, Smith, Miller, Wyant, English on Job Here.

INDEPENDENT basketball of the type which brought Cleveland Roseblums' world's champions, Nat Holmans New York Hawks, the Rochester Americans and other high class clubs into the city last winter, will be revived New Year's eve, Tuesday, Dec. 31, when Manager Earl Greenwalt will bring the Geneva college combine to East Liverpool.

Greenwalt, who handled the business end of last year's East Liverpool independent cage squad, today announced that plans have been definitely completed for the operation of the club again, this year, however, on the high school court.

And the Potters' lineup will be identified with that of a year ago when the local cagers gave district fans one of the best basketball seasons since the old Central leagues promulgated on the polished boards.

Greenwalt said today that three local stars will form the nucleus of the squad—Firth Smith forward and marksman extraordinary; Percy Wyant, center and guard; and Paul English, forward.

Lippe, member of the East Liverpool Elks' five of the county circuit a few years ago and one of the most popular basketball players ever to appear here, will be back on the job at forward again and, in all probability, Bill Miller, who made a big hit with local court enthusiasts in games here last season, will be prancing around at a guard position.

Accommodations in the high school will be rather limited, in comparison to the year ago seating arrangements at the year ago in the old tabernacle court. However, installation of several sections of bleachers from Patterson Field has increased the downstairs capacity alone at the high school to approximately 375, which is more than the total under the old arrangements.

Patronage naturally will determine the extent to which the club will go in booking contests for the present season. Greenwalt hopes to be able to bring in all the high class attractions of the last year as well as many others.

The Cleveland, Brooklyn, Rochester and other clubs of the American professional league have already asked for exhibition dates here while the Fawcett, Kells, Patsy Vostrik's Cleveland all-star combination, the Canton Shearer Soda Grills and a number of good Pittsburgh district teams are in line for games.

## BASEBALL PAYS GRID DEFICIT

Diamond Sport Is "King" in Hoosier State High School Athletic Conference.

By International News Service. SEYMOUR, Ind., Dec. 26.—Although in nearly all universities and colleges of the country, football game receipts pay the bills for nearly all other sports which are operated at a loss, it is a different story in Indiana.

In the Hoosier high school world basketball is king. Nowhere is this illustrated more forcibly than in Seymour high school, which incurred a deficit of \$466.89, due, according to H. C. Henderson, business manager, to "lack of interest in basketball compared to the interest manifested in basketball."

Henderson said that profits from high school basketball in Seymour will wipe out the deficit easily.

## WALKER PATRON OF FOOT RACE

Dozen Of Best Middle Distance Runners In East Will Compete In Mayor's Event.

By International News Service. NEW YORK, Dec. 26.—A dozen of the best middle distance runners now in the East have been invited to compete in the Mayor Walker half-mile race which will feature the Knights of Columbus meet January 4.

Among those invited are Phil Edwards, N. Y. U. last year's winner; Ray Conger, I. A. C.; Fred Velt, N. Y. U.; Sam Martin, Boston A. A.; James Kennedy, Georgetown University and Max Wajely, national junior 1,000 yard champion.

## INJURIES HIT EASTERN SQUAD

Dowler and Calderwood, Halves, Hurt in Scrimmage; Yablock Will Get Call.

SAN FRANCISCO, Dec. 26.—Injuries today were hampering the efforts of the eastern all-star coaches in welding together a team to meet the western stars in their game here New Year's day.

Both Tommy Dowler, Colgate, and Bill Calderwood, Northwestern halfbacks, have been injured in scrimmages, which may necessitate the using of Yablock, Colgate quarterback, as a blocking half.

Motorcycling is becoming a craze in Norway.

American tractors are to be tested for mountain transport in Poland.

## BOWLING COLUMN

Averaging 175 pins in 25 games, Ted Ganas topped "A" league bowlers of the American alleys for the first half of the season, according to figures announced today by league officials.

Scragg led the "B" section with 165 pins in 27 games. First half championship went to the Litten Motors in the "A" loop, with 18 wins and nine losses, while Fleming's copped the bunting in the "B" circuit with 19 wins and eight defeats.

## TUTTI FRUTTI IN AGUA RACE

Named As South America's Most Noted Entry In \$140,000 Handicap March 23.

By International News Service. AGUA CALIENTE, Dec. 26.—Tutti Frutti, winner of many outstanding races on the continent of the Southern Cross, has been named by Senator Enrique Gutierrez as South America's most noted entry in the \$140,000 Agua Caliente Handicap to be decided here March 23.

The race will be the highlight of the eighty-one days' meeting that will open December 28.

Entry of Tutti Frutti gives the race an international flavor. With one English horse almost certain to be pointed for the race, a Frenchman, and a Canadian or so, the Agua Caliente Handicap may become a gruelling sporting duel among equine representatives of those nations.

Tutti Frutti now is in Florida. Max Silvers, handling the horse in North America, says the horse, a son of the famous Salpicon and Damasca, would rank as a contender of the first water in the handicap, a mile and a quarter dash.

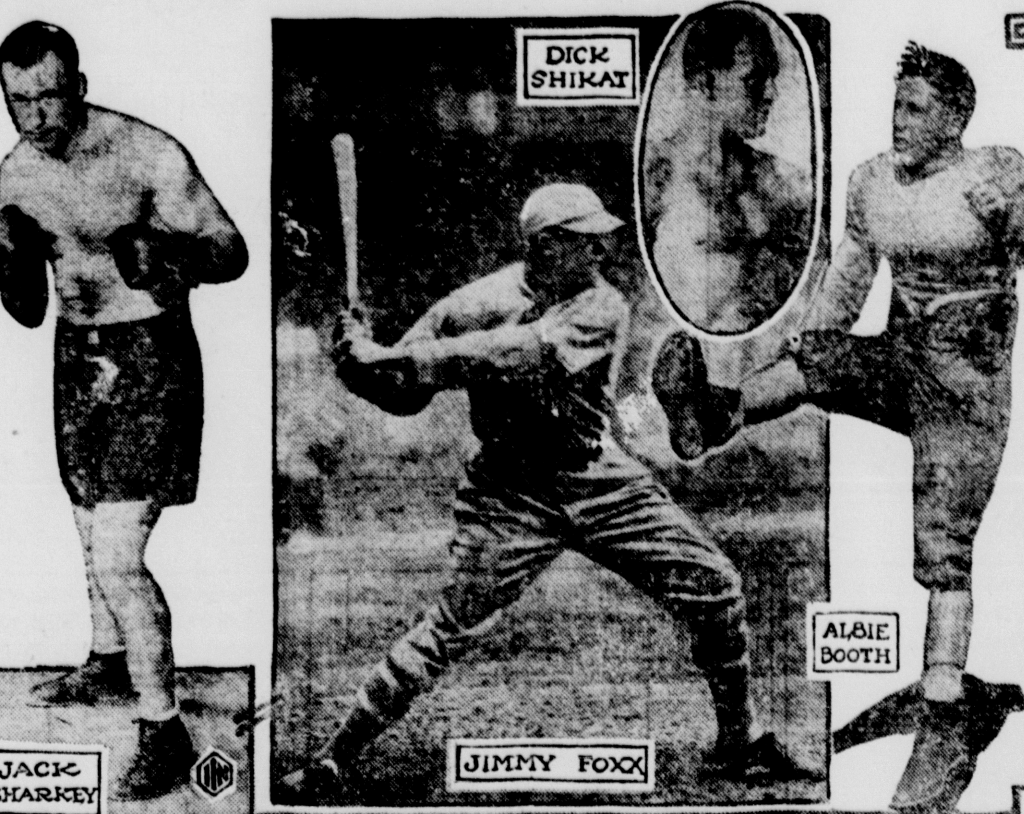

Tutti Frutti raced at Havana last winter.

## Smith Winner

Leading the field by six strokes, Horton Smith, youthful Joplin, Mo., professional, copped the Pasadena open golf tournament, in decisively beating the cream of the country's golfers. Smith carded 280 for 72 holes, or four under par.

## Sharkey, Foxx, Shikat and Booth Star In 1929 Sport Events

As 1929 draws to a close, a glance back over the past twelve months reveals these outstanding figures in the athletic world: Jack Sharkey, Boston, leading contender for the coveted heavyweight title of champion of the pugilistic world. Jimmy Foxx, first base of the Philadelphia Athletics, who has for several seasons been the admiration of fans at the World's series. A few days ago a great loss was lifted from the brow of Boston's wrestling fans when Richard Shikat, retained the world's heavyweight championship of New York and Boston. Tales of gridiron prowess of Abbie Booth, the boy hero of Yale, closes one of the most dramatic seasons in football history.

## Sprint Stars To Clash In Indoor Meets

Simpson, Elder, Tolan Will Run In Gotham Games.

By International News Service. NEW YORK, Dec. 26.—Four special invitation events and two scratch relay races will feature the fourth annual indoor track meet of the Columbus Council, Knights of Columbus, which will open the 1930 track and field season on January 4 at the Twenty-third Regiment armory.

In one of these specials, the Olympic sprint series at sixty, eighty and one hundred yards, the committee hopes to bring together the country's best.

Leading Sprinters. These will include George Simpson, the "world's fastest human" of Ohio State university; Jack Elder, of Notre Dame, whose fame as a holder of the world's sixty yard dash record has been eclipsed by his winning touchdown against the Army last month; Eddie Tolan, of the University of Michigan, national A. A. U. 100 and 220-yard champion; Karl Wildermuth, Georgetown University, former national sixty-yard champion; Bob McAllister, finalist in the 100 meters at the Olympic games in Amsterdam and several other sprint stars of national prominence.

The other three specials are the Columbus 50 yards for the Al Smith trophy, the Mayor Walker half-mile run and the two-mile run. The two scratch relays are the one-mile prep and high school relay.

Other events on the programme are the 100 yards, 1,000 yards, one mile run and running high jump, all handicap; the 880-yard run, novice, the one-mile club and college relay and the 440-yard girls relay race.

Although the sprint series is the outstanding event of the Casey meet, the 500-yard race for the Al Smith trophy is also expected to draw a brilliant field and should provide the fans with plenty of interesting competition. Bernie McCafferty, sensation at Holy Cross last year as a freshman, is expected to be an entrant, and there is a chance that Phil Edwards may desert the half-mile run and compete in the shorter run instead. Phil is adept at distances all the way from the 400 to the mile and would not be out of place in a 500-yard sprint. Johnny Gibson, former Fordham University world record holder, is another possibility for the "500."

## Tigers Seek Games.

The Golden Star Tigers' basketball teams, both boys and girls, are in the field for games with any good district teams. The Stars have gotten off to a fast start and would like to build up their schedule for the remainder of the season.

## PROS VICTORS OVER TIGERS

Local Football Squads Clash for City Grid Championship on Newell Lot.

The East Liverpool Pros defeated the Golden Star Tigers, 18 to 6, on a snow covered gridiron yesterday afternoon at Newell.

The Tigers scored the first touchdown of the game, in the opening period, but the Pros came on then to register three six-pointers.

## RAY CAMPBELL, WRITER, IS DEAD

Cleveland News Boxing Authority Succumbs After Three-week Illness of Influenza.

By International News Service. CLEVELAND, Dec. 26.—Sports writers, and the boxing world generally, today mourned the death of Ray Campbell, 25, nationally known boxing authority and writer for the Cleveland News.

Campbell died suddenly at his home in Lakewood last night from typhoid fever which set in after a three-week attack of influenza.

As a promoter and fight manager, Campbell first won his spurs in Philadelphia, his birthplace, at the age of 17 through his knowledge of boxing mechanics and history. Later, he became associated with Billy Gibson who, at the time, was manager of Benny Leonard, lightweight champion of the world.

Campbell was a close friend of Gene Tunney before the latter gave up boxing. He was one of the few sports writers who predicted Tunney's victory over Jack Dempsey when the two first met in the arena at Philadelphia.

## Lefty O'Doul Swats .398 In Winning Title

By International News Service. NEW YORK, Dec. 26.—Frank J. (Lefty) O'Doul of the Phillies is formally proclaimed champion batsman of the National League with the issuance of the official averages for the 1929 season.

## Lefty O'Doul Swats .398 In Winning Title

Played in Every Game And Walloped Most Bingles.

By International News Service. NEW YORK, Dec. 26.—Frank J. (Lefty) O'Doul of the Phillies is formally proclaimed champion batsman of the National League with the issuance of the official averages for the 1929 season.

O'Doul, a former pitcher and cast-off by other major league clubs, led the pack with an average of .398. Unofficial averages had credited him with an even .400.

O'Doul procured 254 hits during the campaign, establishing a new major league record. This topped by four safeties the record of 250 established by Rogers Hornsby for St. Louis in 1922. O'Doul and Lloyd Waner of the Pirates each registered 181 singles.

Hornsby Sets Scoring Record. Rogers Hornsby, who won the most valuable player award as a result of his consistent efforts for the Chicago Cubs during the season, also broke a National League record by scoring 156 runs. Hazen Cuyler, now a Cub with Hornsby, scored 144 runs with Pittsburgh in 1925 to establish the previous high. Hornsby led, too, with the most total bases, 410.

Hornsby, however, saw one of his league marks shot away by another newcomer in such select class. Chuck Klein, also of the Phillies, making a new home run record with 43. Hornsby hit 42 in 1922.

Johnny Frederick's 52 two-base hits were enough to create another record and Lloyd Waner led in triples with 20. Freddy Maguire, Boston, topped the sacrifice hitters with 26 and Kiki Cuyler showed

## Irish 1930 Bill Greatest In Football

Ramblers, However, to Play Half of Them At Home.

By International News Service. SOUTH BEND, Dec. 26.—Notre Dame's 1930 football schedule is being hailed here as the greatest grid card ever undertaken by a football team.

It comprises ten games to be played between October 4 and December 5. There isn't a single "breather" on the schedule.

A "suicide" schedule is what the Veteran Piskin Wizard Knute Rockne of Notre Dame called it, but Rockne called attention to the fact that one-half of the games will be played at home—in Notre Dame's new \$600,000 stadium.

Not So Much Traveling. "The boys won't have to do so much traveling next year," he explained. "That ought to help us."

A squint at the schedule showed that the Irish Ramblers will effect a huge saving in railroad fares in 1930. Just imagine it—Notre Dame will play the first three games at home. The galloping riders won't hit the Pullmans until October 25, nearly a month after the start of the season!

But they'll do fairly well before the season is over. They'll travel to the Atlantic Coast to meet the Army. Then they'll chase the setting sun to the Pacific to lock horns, shins or what not, with the Trojans of Southern California.

Three newcomers will appear on the 1930 Irish schedule. They will be Southern Methodist University of Dallas, Texas; Pittsburgh University and the University of Pennsylvania.

For the first time in eight years Georgia Tech will be missing from the Notre Dame schedule. Wisconsin will be gone for the first time in three years.

The new \$600,000 Notre Dame stadium will be formally dedicated at the Navy game on October 11.

Hope for Record Crowds.

The 1930 Notre Dame football schedule is expected to enable Notre Dame to break the great attendance record established in 1929 when Notre Dame teams played before 574,000 spectators in nine games. Total 1929 gate admissions exceeded \$2,000,000.

Nebraska sought a place on the 1930 schedule but the Cornhuskers and Irish were unable to agree on a mutually satisfactory date and Drake was given the place on the

way to the base stealers with

Sixty Hit .300 or Better.

The hitting in 1929 was better than that offered for 1928. Sixty players hit for .300 or better while in 1928 the .300 hitters numbered only 47.

Only five players participated in all the games their teams played and Philadelphia had three of the exclusive quintet. O'Doul, Arthur Whitney and Frank Hurst. The others were Hornsby of the Cubs and George Sisti of the Braves, who probably has played his last season as a regular.

O'Doul is the fourth player to lead the National league while wearing the uniform of Philadelphia and the first for nearly 20 years. Sherwood Magee had the honor in 1910. Ed Deleahanty had topped the heap in 1899 and Billy Hamilton in 1891.

O'Doul won the batting championship by 17 points from Floyd (Babe) Herman of Brooklyn. The Robin outfielder took the runner-up position from Hornsby by a single point.

schedule.

The 1930 Notre Dame schedule follows:

Oct. 4—Southern Methodist at South Bend.
Oct. 11—Navy at South Bend (dedication of new stadium).
Oct. 18—Carnegie Tech at South Bend.
Oct. 25—Pittsburgh at Pittsburgh.
Nov. 1—Indiana at South Bend.

## Campolo Next For Sharkey

Will be Gob's Last Foe Before Jack Boxes For Title.

By DAVIS J. WALSH.

International News Service Sports Editor.

NEW YORK, Dec. 26.—A very earnest young man by the name of Victorio Campolo will be named in due time by the Madison Square Garden corporation as the last opponent Jack Sharkey will face before he goes in there with somebody next summer for the heavyweight championship. Campolo and Sharkey are virtually ordained as the principals in the annual heavyweight fight at Miami on Feb. 27, unless something happens in the meantime. If it does, the odds are six, two and even that it won't happen to Campolo. He may fight here before the Miami enterprise but, if so, it will be with some very good, reliable humpy dummy.

Meanwhile, Tuffy Griffiths and Johnny Risko are to go ten rounds in the garden tomorrow night, presumably for a chance to figure in the Miami fight. If this isn't to be the case, what are these bright lads fighting for? The exercise, doubtless.

As for Campolo, I assume he is to be named on the strength of his American record, which includes one victory over Tom Heeney and one defeat by Phil Scott, the well known human being. There must be one of these performances that is less plausible than the other but, personally, I prefer to do my guessing at the race track where I can pick my losers with confidence.

# SHUNT DEBATE ON NAVY PLANS

Congress to Sidetrack Relations And Ship Armaments During London Arms Conference.

By International News Service. WASHINGTON, Dec. 26.—Congressional debate upon international relations and the American navy in particular will be curtailed as much as possible during the

London arms conference by withholding the annual navy appropriation bill from the house and the world court protocol from the senate, it was disclosed today. The decision upon the part of administration leaders of the house to delay the naval supply bill is expected to prevent any embarrassing discussion of President Hoover's action in holding up construction of three cruisers and the ever troublesome question of parity with Great Britain.

# MARKETS AND FINANCIAL

## STOCK SALES ARE SLUGGISH

Utilities Climb Few Points; Oils Also "Perking Up."

By W. S. COUSINS, International News Service Financial Editor.

NEW YORK, Dec. 26.—With prices inclined generally upward, the stock market passed through another extremely dull period this morning. Stock sales in the first half-hour totaled only 238,000 shares, the slowest opener in a year, but buying orders flowed in a little more briskly near the end of the first hour. Utility stocks were well bought a few points above Tuesday's close, and oils perked up under the stimulus of excellent reports of further progress in curbing the overflow of crude oil in Mid-continent and California.

The market as a whole had a sold-out appearance, with an overcrowding of the short interest in the well-known stocks. As the result, it required little buying demand to push up the prices of stocks which were under the hammer last week. A rally in Anaconda to 73 1/2, up 6 points from the low of the week, indicated that no change would be made in the cash dividend at today's directors' meeting.

EUROPEAN MARKETS CLOSED. By International News Service. NEW YORK, Dec. 26.—Most of the European markets were closed today for extended Christmas holidays, and some will remain closed until next Monday, December 30.

The Berlin bourse and the Amsterdam bourse were closed yesterday and today. The London Stock Exchange, the Liverpool Cotton Exchange, the Paris bourse, and many of the smaller commodity exchanges will remain closed until Monday.

All American markets reopened this morning after the Christmas holiday at the regular hour for trading. Because of the holidays abroad all foreign exchange rates on money were nominally quoted unchanged from Tuesday's close at the resumption of business here today.

## BORAH'S BLAST BRINGS ACTION

Reorganization of Enforcement Machinery and More Cash for Dry Arm Planned.

By International News Service. WASHINGTON, Dec. 26.—Sweeping reorganization of the entire prohibition enforcement machinery, including the appropriation of more money for the federal dry army, was seen today as a direct result of the controversy between Senator Borah (R.) of Idaho and Attorney General Mitchell over the progress being made in drying up the nation.

Dry leaders in and out of congress were shocked by the full force of the Borah declaration that prohibition can never be enforced with the present personnel.

Attorney General Mitchell and Prohibition Commissioner Doran, fearing a breakdown of the morale of the federal enforcement personnel under the attack, struck back with the declaration that their loyal army of agents is making headway in the face of many handicaps.

THREE MEN FLEE JAIL. By International News Service. SALEM, Mass.—Dec. 26.—Sawing an inch-bar in the corridor of Salem jail while the inmates were marching to breakfast today, three prisoners leaped eight feet to the ground below and made their escape.

The men who escaped are Frank Curry, alleged hijacker; Frank Mullen, alleged pickpocket, and Patrick J. McGinnis, serving an indefinite sentence for larceny.

"JUST SUPPOSE IT HAD BEEN EMPTY!" An Ohio mother writes this: "I knew our bottle of Foley's Honey and Tar was getting low, but just neglected replacing it. Then one night Sonny awoke us with that dreaded croupy cough, and I fairly flew for our bottle of Foley's Honey and Tar. I am thankful to say the few remaining doses relieved him and he soon rested quietly. But, just suppose that bottle had been empty!" Reliable, and for these many years a standard family cough medicine of highest merit. Ask for it. For sale at Herche's Drug Store, 6th St., and Dresden Ave.—Adv.
